

Topcon Deltalink Enclosure

Specto Technology proudly presents the Topcon DeltaLink Enclosure – a durable and dependable solution designed for continuous, 24/7 monitoring. Built with high-quality components, it supports connections to external solar panels and features a weatherproof enclosure with waterproof connectors, ensuring reliable performance in any environment. The DeltaLink provides robust hardware support for autonomous field operations, making it ideal for long-term, remote monitoring.

FEATURES

- Weather resistant enclosure
- Pole Mount kit for solar panels
- Built in cellular antenna
- Ethernet port capabilities
- Barometric pressure & Temperature sensor port
- DC Power input port
- AMTS power/control port
- GPIO (Auto level Tribrach) port

BENEFITS

- Reduces field setup time
- Simple connection
- All-in-one solution
- Weatherproof & dust proof
- Quick setup time
- Ideal for long-term, outdoor monitoring projects
- Pad lock

TYPICAL APPLICATIONS

- Construction
- Tunnel convergence
- Mining
- Dams
- Bridge
- Road construction
- Landslides and slope stability

TECHNICAL SPECIFICATIONS

- Enclosure Size: 22.625" x 19.25" x 19.625"
- Enclosure Material: Fiberglass
- Antenna: Ultra-wide band cellular with diversity
