

EDGE DEVICES - WIRELESS SENSORS

Tilt90

LS-G6-TIL90-X / LS-G6-TIL90-I

Worldsensing Tilt90 is a 3-axis wireless tiltmeter designed to provide measurements of changes from the vertical level, either on the ground or in structures. This makes them key sensors to monitor inclinations, movements and differential settlements of slopes or infrastructures.

The Tilt90 wireless sensors are available with an external antenna for full range capabilities or with an internal antenna for applications as railway tracks where it's important to minimize the potential risk for external parts.

The Tilt90 is capable of transmitting data via long-range radio to a gateway connected to the Internet up to 9 miles/ 15 km. away.

FEATURES

Wireless 2-1 sensor and data logger.

3-axis inclination with respect to gravity's direction and a range of $\pm 90^\circ$.

Standard deviation transmitted with each tilt measurement to enable noisy data filtering.

Robust, compact design and IP68 grade weather-proof box.

Long battery life (>17 years @1h sampling rate).

Two versions available - external and internal antenna.

Long range communications through LoRa communications.

SOFTWARE

User-friendly Android configuration app included.

Web browser software for network, device and data management.

Single-gateway network setup with CMT Edge software. Dataserver and radio server hosted in the gateway and data access through standard CSV downloads, FTP push, Modbus TCP, API REST and MQTT¹.

Multi-gateway network setup with CMT Cloud software and advanced features with data access via standard CSV downloads, FTP push, API REST and MQTT push¹.

LS-G6-TIL90-X

LS-G6-TIL90-I

One gateway can also support dozens of data loggers in the same network, depending on the reporting period, through a star or tree network topology.

In terms of energy consumption, Worldsensing Tilt90 is an autonomous battery-powered device with C-size batteries that can last up to 10 years with minimal to zero maintenance required. It is IP68 certified and tested from -40C to +80C.
